

## EDUCATION

### ASANSOL ENG. COLLEGE

BACHELOR IN TECHNOLOGY (IT)

CURRENT SGPA - 8.1

Expected Grad : July 2025

Asansol, West Bengal, India

### DAV PUBLIC SCHOOL (DCH)

HIGHER SECONDARY - (PCM)

Passed : July 2021 | Cum. Per : 75%

Singrauli, Madhya Pradesh, India

## COURSEWORK

Object Oriented Programming (OOPS)  
Data Structures & Algorithms (DSA)  
Introduction to Core Java Programming  
Artificial Intelligence & Machine Learning  
Software Engineering & Testings  
Operating System, DBMS & Networking  
Full Stack (MERN) Web Development

## SKILLS

### PROGRAMMING

Experienced :

• Core Java • OOPS (Java) • Linux • PHP •  
HTML5 • CSS3 • JavaScript • ReactJs •  
DBMS • MySQL • MongoDB (NoSQL) •  
Operating System • Networking

Familiar :

• NextJs • ExpressJs • NodeJs •  
TailwindCss • Bootstrap • Testing •  
WordPress (CMS) • CodeIgniter • MVC  
Architecture

### TOOLS/APPLICATIONS

• Git • Github • Visual Studio • Eclipse •  
RedHatEnterprise (Linux) • WordPress

## EXPERIENCE

### OASIS INFOBYTE

FULL STACK WEB DEVELOPMENT & DESIGNING INTERN

Feb, 2023 - Mar, 2023 | Asansol, West Bengal, India

- Design & Development of **frontend & backend** for a food ordering web app.
- Added customize food ordering layout & Made **responsive** for all devices.
- Added customize admin panel where **admin can add or delete** multiple items from their menu & they can **track the status** of current order & Used **REST APIs**.
- Added Payment Option Using **Stripe** : Razorpay/Debit/Credit Card.
- Technologies Used : HTML/CSS/Javascript/Bootstrap, **MongoDB, Express JS, React JS & Node JS**

## PROJECTS

### FEATURED PROJECT

#### CYBER CAFE MANAGEMENT SYSTEM

- We can customize the data of mysql by using phpmyadmin easily.
- I have added a admin panel (CCMS Dashboard) where admin can easily manage by the cyber cafe.
- Technologies Used: **Php & Mysql**.

### PERSONAL PROJECTS

#### SORTING VISUALIZER

- I have uses multiple algorithms to visualize its time complexity & space complexity.
- I have added a custom design to increase the speed & size of algorithms.
- Technologies Used: **HTML/CSS/Javascript & Reactjs**.

#### FOOD DELIVERY WEB PAGE

- Design & Development of a ( frontend ) for Food Ordering Web App.
- We can customize the pizza section & added add to a cart option.
- Technologies Used: **HTML/CSS/Javascript & Bootstrap**.

## ACHIEVEMENTS

- **150+** problems solved at [geeksforgeeks.com](https://www.geeksforgeeks.com)
- **200th** rank among 1500+ college mates on [geeksforgeeks](https://www.geeksforgeeks.com).
- **100+** problems solved at [leetcode.com](https://leetcode.com)
- Good Knowledge of **DSA Fundamentals & Core Concepts** :  
**Database/Operating System/Networking/Software Testing** etc.
- Member of Google Developer Student Clubs (GDSC).
- Having Working Experience on Multiple **AI Tools**.
